PRODUCT DESCRIPTION

There are a lot of unexpected things that could happen before or during your trip that could cause you to lose your trip investment or require you to pay unexpected costs. This product financially protects you against a wide variety of unexpected expenses including emergency medical, trip cancellation, trip interruption, trip delay, baggage, as well as airflight accident expenses. This product is only available for travellers under the age of 30.

Here is a summary of the product's main coverages:

Trip Cancellation (See policy - pages 10-17)	Need to cancel your trip, before your trip departure date, because of an unexpected reason listed in the policy, such as an injury to yourself, a family member's sudden death, or a schedule change that causes you to miss your flight entirely? This benefit reimburses you for the unused, non-refundable TRIP COST payments you've made.
Trip Interruption (See policy - pages 10-17)	This benefit covers you in case you have to end a trip that's already begun (on or after your trip departure date) for an unexpected reason such as your own sudden illness, the illness of your travelling companion, or a delayed flight that causes you to miss a large part of your trip.
Trip Delay (See policy - pages 17-19)	Even if your trip is delayed due to unexpected reasons, you may still want to catch up and enjoy the rest of it. For example, you could find out, after arriving at the airport, that your flight is delayed until the next morning because of a snowstorm. This benefit helps cover your hotel fees and meal expenses while you wait.
Emergency Medical Expenses (See policy - pages 19-26)	Imagine you unexpectedly injure yourself or become ill while outside your province of residence. This benefit provides coverage against the resulting hospital charges and emergency medical expenses that arise.
Baggage (See policy - pages 26-28)	Coverage is provided if your luggage is lost, stolen, or damaged during your trip. Reimbursement is also available if your passport, travel visa, birth certificate, and/or driver's license is lost, stolen, or damaged.
Airflight Accident (See policy - pages 28-30)	Coverage is provided if you suffer a loss of life or loss of a limb while riding on a commercial airplane during your trip.

What is my TRIP COST?

Your trip cost is any money you paid related to your trip. This can include the cost of your airline ticket, hotel, tour, cruise, etc.

WHAT IS COVERED?

To know what your maximum reimbursement would be for each benefit, see the 'Schedule of Maximum Benefits' on page 5 of the policy.

Trip Cancellation

(See policy - pages 10-17)

We reimburse your non-refundable trip cost payments if you are unable to go on your trip for one of the unforeseen, listed reasons in the policy.

There are several reasons why you might cancel a trip. Two of the main reasons are because either you, your family member, or your travelling companion get sick or injured before the trip begins.

If you need to cancel your trip, the policy pays up to the trip cost amount you purchase. Some expenses are reimbursed up to a fixed amount.

For Example:

You purchase a \$3,000 trip and purchase insurance to protect your \$3,000 trip cost. One week before leaving for your trip, you unexpectedly fall ill. Your doctor tells you not to travel, so you cancel your trip. With a TIPS Youth Premier Plan, you would be eligible for reimbursement for any unused, non-refundable costs up to \$3,000 (your total trip cost).

NOTE

- *If you need to cancel your trip because of an unexpected event, tell your travel agent within 72 hours of the event. If you do not, any reimbursement you receive will be limited to cancellation penalties that were in effect within 72 hours of that event.*
- *Trip Cancellation only applies if the policy is purchased prior to or within 72 hours of the final payment date.*
- *We will not reimburse any refunds or credits (including future travel vouchers) you are entitled to receive from your travel supplier, even if you decline the credit or voucher.*
- *If a travel supplier or carrier goes bankrupt or shuts down, there may be a provincial compensation fund you can receive reimbursement from. We reimburse you, in excess of a compensation fund, up to your sum insured trip cost to a maximum of \$3,500.*

Trip Interruption

(See policy - pages 10-17)

We reimburse your unused, non-refundable trip cost payments and make sure you get home if you are unable to continue on your trip for one of the listed reasons in the policy.

For example, if a family member at home gets sick and you need to return home, we will pay for your return flight home. In addition, we will reimburse your non-refundable costs for any missed travel days up to the trip cost amount you purchased. Some expenses are reimbursed up to a fixed amount.

For Example:

You are already on your trip, when you hear that your father has become seriously ill. You decide to stop your trip and return home to care for him. The only available flight home is tomorrow morning which means you need to wait and book a hotel close to the airport so you can catch the early morning flight home.

With a TIPS Youth Premier Plan, you would be eligible for reimbursement for:

- *your cost to return home (\$5,000 or up to your trip cost amount if it is over \$5,000 and you have paid a higher insurance cost);*
- *any non-refundable days you haven't used (up to your trip cost); and*
- *up to \$150 per day to a maximum of \$300 for unexpected accommodation and any meals (fixed amounts).*

Trip Delay

(See policy - pages 17-19)

We reimburse certain unexpected costs you have to pay when your travel is delayed due to the reasons listed in the policy.

For Example:

You are travelling and have a connecting flight which is scheduled as the last flight of the day. Due to a delay in your first flight leaving for a reason beyond your control, you miss your connecting flight and since there are no other flights that day you need to spend a night in hotel and leave on the first available flight the next morning. The airline also charges you a change fee. Since the total delay is more than 6 hours, with a TIPS Youth Premier Plan you would be eligible for reimbursement for:

- *the change fees or additional fares to continue on your trip (up to \$1,500); and*
- *up to \$150 per day to a maximum of \$300 for accommodations and meals.*

NOTE

- *Trip Delay coverage is meant to help you with the extra expenses to catch up to your trip. If you experience a delay, you need to make reasonable efforts to continue on your covered trip.*

Emergency Medical Expenses

(See policy - pages 19-26)

We reimburse your medical expenses and certain other direct expenses you have to pay if you have an unexpected medical emergency during your trip.

The policy pays for the reimbursement of reasonable expenses. Some expenses are reimbursed up to a fixed amount.

For Example:

It's the last day of your trip when you fall and break your ankle. You go to a hospital for emergency medical care. The doctor tells you cannot fly home tomorrow as originally planned and have to extend your trip by 3 days to let your ankle heal. You book a hotel for the extra days and purchase extra meals. With a TIPS Youth Premier Plan, you would be fully reimbursed for any medical care provided (up to \$1,000,000). And you would be eligible for reimbursement up to \$150 per day to a maximum of \$450 for your accommodation and meals.

Baggage

(See policy - pages 26-28)

We reimburse any direct expenses you need to make if your baggage is lost, stolen, damaged or delayed during your trip.

For Example:

You reach your travel destination when you realize your luggage is not there with you! The airline staff later confirm that it is lost. With a TIPS Youth Premier Plan, you would be eligible for reimbursement up to \$800 for the replacement of your baggage and its contents.

Reimbursement for some baggage items is limited, including your birth certificate, passport and cash. See pages 26-28 of the policy for details.

Airflight Accident

(See policy - pages 28-30)

We pay the maximum benefit if you suffer a loss of life or loss of a limb while riding on a commercial airplane (not as the pilot or flight crew) during your trip.

Travel Assistance

See page 11 of this summary for details.

NOTES

- *This policy is secondary to all other sources of coverage and all other sources of recovery.*
- *For emergency medical expenses, we pay over and above what your government (RAMQ), university (UHIP) or private health plan allows.*

WHAT IS NOT COVERED?

What are the reasons we will not pay a claim?

There are several situations and reasons why your claim may not be paid. These are **listed in the policy** in the Policy Exclusions section (see pages 31-37).

The most common reason for denial is due to a **pre-existing condition** that is not stable.

A **pre-existing condition** is a medical condition that exists before your **effective date** (the date when coverage under your policy starts). See page 4 of this summary to review when coverage starts.

A **pre-existing condition** must be **stable** for 60 days before your **effective date**:

Coverage	Pre-Existing Condition Stability Period
Trip Cancellation	60 days before (and including) the day you buy the policy
Trip Interruption and Emergency Medical	60 days before the day you leave for your trip

Stable means:

1. You didn't have any new treatment, changes to treatment, or stoppage of treatment;
2. There were no changes to any prescribed drugs you take (including increases, decreases, or stoppages);
3. Your condition didn't get worse;
4. None of your symptoms changed;
5. You weren't admitted to a hospital or referred to a specialist;
6. No recommended tests or investigations were pending; and
7. You didn't have treatment planned or pending.

All points above must be true for a condition to be stable.

PRE-EXISTING CONDITION EXAMPLE

Mary is 27 years old and has a pre-existing condition of migraines...

June 10th	Mary books a trip to France to travel from July 1 st to July 10 th and purchases a TIPS Youth Premier policy.
June 30th	<p>One day before she is set to leave for her trip, Mary decides to cancel her plans because she is experiencing migraines.</p> <p>Mary files a claim with her insurance company for the following pre-paid, non-refundable costs:</p> <ul style="list-style-type: none"> • \$1,500 for her flight • \$1,000 for her hotel fees
July 2nd	In processing the claim, the insurance company finds medical documentation which indicates that Mary was seen on June 1 st for migraine pain and that her doctor later scheduled her to have an MRI done.

In this example, Mary is filing a claim for her non-refundable costs of \$2,500 (trip cancellation coverage). Because Mary is claiming for cancellation coverage, her pre-existing condition needs to be stable for 60 days before her policy purchase date (June 10th).

Mary's condition was not stable because her condition got worse/her symptoms changed on June 1st, during the 60-day period leading up to June 10th. As a result, her trip cost of \$2,500 would not be covered under the policy.
